Summary

I am a motivated, passionate, and solution-driven Full Stack Web Developer excitedly programming new projects to seek out the perfect application. I am ecstatic to tackle the next project using NodeJS, MySQL or NoSQL, REACT, REDUX and new technologies never used.

Technical Skills

Languages: HTML5, CSS, REACT, REDUX, Bootstrap, Handlebars, NodeJS, MySQL, MongoDB
Applications: Data Modeling, UI design, Back-end Front-end Integration, Web app

Projects

Project-JAW | https://github.com/clam1987/Project-JAW |
https://clam1987.github.io/Project-JAW
A food recipe app that finds ingredients and gives results on what the users can make.
- Manage the project while coding firebase database integration
- Created the application mainframe using a combination of HTML5, CSS, Javascript, and Bootstrap while using Firebase for user authentication.

Asteroid Party | https://github.com/funkadelic83/asteroid-party |
An asteroid finder and party planner.
- Responsible for connecting the server to front-end, debugging, and texting integration
- Prepared the backend server using NodeJS, Javascript, and Express. Integrated Text support with Twilio

The Seven Kingdoms | https://github.com/clam1987/Project-JPMG |
https://clam1987.githubio/Project-JPMG
A Game of Thrones themed Interactive-RPG
- Creating and maintaining the Back-End Server with authentication, models, and communications between Back-End and Front-End (I.E. CRUD Method)
- NodeJS, Passport, MongoDB, REACT, REDUX, Express
- Finalized Back-End Server with NodeJS and Express. Programmed user authentication using Passport, REDUX, and React while refining the Database and Models with MongoDB.

Education

Bootcamp Certificate: UCLA Extension, Westwood, CA   2019-2019
Education Experience 1: Attended East Los Angeles College, Monterey Park, CA   2016-2018

Experience

Delivery Man   2018 – 2019
Letter Ride   Temple City, CA
Delivered packages on time while helping teammates who are struggling to maintain route.
